

Please see below and let me know if I need to do or send anything else.

American Legion Post 87 request. Is a small community post in our rural Community of Buffalo, SC in Union County, SC. It is a very proud post with many older veterans from our county. They asked me to come and meet with them about a year ago and told me that they have lost some members and struggle to get ahead. As they, have do have fund raising events, with an older population they do not have much help. They lack for Chairs and folding tables in the lodge. They cover all of cleaning supplies and make some repairs to the building as needed. It is a very old building in Buffalo. The county owns the building and lets the post use it as long as they keep it up, etc. The county has just let them know that they have to either find another place or take over the building including insurance, etc.

This proud post cannot afford to take over the building, maintain and cover insurance. As of last Christmas, they did not have a post Christmas party because of lack of chairs and tables. They asked me for a small amount of help to help get them over the over this time as they have membership drives taking place. This is a one time request to keep this post functioning and to provide the ability to get folding chairs and folding tables to seat members and guests. The request of \$6,000 will help them get the needed items for the lodge and get them ahead for this and next year.
